Social entrepreneurship for youth

Project Reference No: 2020-2-IS01-KA205-065841

The project in a nutshell

SE4Y aims to support young people who want to learn and grow both professionally and personally by caring for others and their environment. In such a context, attention is being paid to SE as a tool with high potential for employment creation and for providing innovative responses to the current economic, social and environmental challenges. The overall objective of the project is to enhance youth capabilities in terms of social entrepreneurship in a long term basis.

Developed products so far...

1. A Roadmap to create a social enterprise in 10 steps in text and video format containing the necessary information and helpful instructions to provide to young people a step process for plan, launch, manage, and grow successful social enterprises

2. Capacity building Course on Social Entrepreneurship towards Sustainable Growth consisting in 6 Modules:

- Me as a Social Entrepreneur
- Social entrepreneurship in the partner countries - Legal Framework
- Co-creating and co-financing
- The do's and don'ts of social entrepreneurs
- The concept of sustainable growth - Best practices
- Designing a Social Business Model - Use and Tips

3. The SE help desk providing implementation assistance to youth organizations, non - profit organizations, and connecting groups with useful resources. The "Help Desk" system will help young people aspiring to become social entrepreneurs with all the registration procedures by providing information and assistance in a single spot. The web portal is an interactive platform which include definitions on SE, guidelines on how to establish SEs in participating countries, different models, tools, relevant links, business ideas, list of mentos and available funds

...Coming next...

All partners are already running in their countries training workshops with at least 15 low qualified young, to test the capacity building course previously created. Each country - course lasts approximately 30 hours in total. The authors of the two business projects will have the opportunity to join the Training Course in Lithuania in May. The LTTA will allow young people to exchange experiences and enrich their understanding of enterprises' functioning in the various countries and pitch their business cases to a panel of jury experts from the private sector who will provide instant feedback and ask challenging questions.
